

DogWatch®

Hidden Fences

How does DogWatch compare to Invisible Fence®?

DogWatch (DW) and Invisible Fence (IF) both sell and install hidden underground pet containment systems . . . with several significant differences. It is important to understand the facts before you purchase either system.

| IMPORTANT FEATURES AND FUNCTIONS |  DogWatch® | INVISIBLE FENCE® | Additional Information |
|---|---|-------------------------------|---|
|  Consumers Digest Best Buy | YES | Yes | Both DW and IF are a Consumers Digest Best Buy. |
| Signal Type  |  FM (Digital - SafeLink®) | AM (Digital) | FM is safer because it is less prone to interference and unintended corrections. (patented by DW) |
| Batteries <ul style="list-style-type: none"> • Battery life • Annual replacement cost (1 dog) • Uses standard battery |  | 3 months \$60 No | DogWatch has the longest battery life available. This is important for the safety of your pet, and it is good for your wallet and for the environment. IF batteries are proprietary and must be purchased from an IF Dealer. |
| User Programable Transmitter & Receiver |  | No | The user programmable transmitter and receiver can each be adjusted for the specific personality of your pet(s). <i>No Dealer service call needed.</i> |
| Receiver Status Light <ul style="list-style-type: none"> • Correction Level • “TattleTale” • Battery Status | YES YES YES | No No Yes | The status light on the DW system lets you know: - the correction level setting - if your pet has tested the boundary in the past 24 hours (“TattleTale”); and - if the battery is low or not working |
| AutoMemory® Reset (if pet tests boundary) | YES | No | If your pets tests his boundary, the correction level increases one level for 24 hours. |
| Individual Settings for Multiple Pets | YES | Yes | Both DW & IF accommodate multiple pets with individual settings on the same system. |
| Multiple Boundary Zones | YES | Yes | Both DW & IF can be set with multiple zones. |
| Multiple Receiver Sizes and Features Options | YES | Yes | Both DW and IF offer several receiver sizes with different features for a variety of dogs. |
| Reaction Time (correction response after audible warning) | Distance Based | Time Based | ‘Distance’ based response (where dog is in relation to boundary wire) is safer & more accurate. |
| Wireless Transmitters | YES | Yes | Both DW & IF have indoor wireless systems. Outdoor wireless is not offered by DW for safety reasons. |
| Contact Posts | Polished Stainless Steel | Polished Stainless Steel | Polished stainless steel posts provide the safest, smoothest contact and the least friction to help prevent skin sores. |
| CE and RoHS Compliant (Reduction of Hazardous Substances) | YES | No | CE and RoHS standards are important performance, safety and environmental considerations. |
| Internal & External Lightning Protection | YES | No | All DW products include both internal and external lightning protection as a standard feature. |
| Lifetime Warranty |  | No | All DW outdoor systems have a lifetime warranty as a standard feature. |
| Largest Independent Dealer Network (100% Locally Owned) | YES | No | Independent locally owned Dealerships have a vested interest in customer service & satisfaction. |
